ABOUT

I know that the path to success is hidden in me. To achieve it, you just need to develop your mind and learn something new.

EXPERIENCES

2021-2022 — **Strata Solutions | Moscow, Russia | Hybrid**
QA/AQA Engineer

- Worked on drilling software that has no analogues around the world. Created the testing process from scratch by implementing tools such as JIra, AIO Test, Squish (For testing automation) into the process.
- Created test documentation from scratch (test plan, test kits, test cases).
- Conducted GUI testing to check the quality of the application in accordance with the requirements.
- Regression testing of new builds was carried out with feedback provided to the project manager/development team.
- Created autotests in the Squish program and ran them during regression testing.

2021-2022 — **TestPro | California, USA | Remote**
QA Instructor

- I helped students to master the course material and explained all the nuances, shared my experience.

2020-2021 — **In/Out | California, USA | Remote**
QA Engineer

- Participated in the creation of test documentation from scratch (test plan, test suites, test cases).
- GUI testing to check the quality of the web application in accordance with the requirements.
- Conducted functionality testing using Chrome, Safari and Edge browsers to ensure cross-browser compatibility of the application.
- Developed SQL queries/procedures for testing databases and backend.
- Conducted functional testing of web application elements based on specific test data.
- Conducted smoke API tests in Postman.
- Regression testing of new assemblies was carried out with the provision of feedback to the QA manager/development team.
- Communicated with a remote team via Slack messenger, Skype.
- Conducted usability testing to identify problems with ergonomics and accessibility in the application.
- Reported on errors in Jira with further tracking and verification of files released by developers.
- Reviewed the stories and participated in the daily Scrum meeting, iteration planning and release rlanning.
- Interacted with developers, system engineers and testing teams for detection of application defects.
- Participated in a software design review meeting, created an appropriate test plan.
- Carried out functional testing on iOS/Android devices and Windows OS.

2020-2020 — **uTest | USA | Remote**
Software testing

- Conducted functional and non-functional testing.
- Tested the web and mobile offer.
- Used various tools and methodologies in the testing process.

2013-2020 — **Video Art | Armenia | Remote**
Testing video editing

- Tested video editing using programs such as Adobe Premiere Pro, Adobe After Effects.

EDUCATION

Synergy University
2022 | Bachelor in Computer Engineering

Udemy
2022 | Postman API Testing

Udemy
2022 | SQL for beginners

TestPro
2020 | Software training course

SKILLS

- SDLS
- Smoke Testing
- Regression Testing
- Functional Testing
- Installation Testing
- Black Box
- Gray Box
- Web testing
- Mobile testing
- Agile (Scrum)
- Waterfall
- HTML
- CSS
- SQL
- JavaScript
- Windows, Mac OS
- Android, iOS
- Chrome Dev Tools
- JIRA
- Confluence
- Zephyr
- AIO Test
- Android Studio
- Visual Code Studio
- Browserstack
- Postman
- Swagger
- DBeaver
- GitHub
- Git Bash
- Jenkins
- Squish
